

ENP5170

Slim series type-LV 7.06 kWh
BYD Blad Battery

- ✓ Auto ID
- ✓ Automatically assign any host
- ✓ Smart Temperature Control
- ✓ Smart parallel technology compatible batteries with different SOC and voltages

ENP5170

Slim series type-LV 7.06 kWh

BYD Blad Battery

CONTENTS	PARAMETERS
Model Number	ENP5170
Battery	7.06kWh
Module energy Useable	6.9kWh
Energy Max output	5kWh
power Peak Output	5.6kW
Nominal voltage/Amph	51.2V/137Ah
Operating Voltage Range	43.2V-57.6V
Dimension(W/D/H)	1090x580x80mm
Weight	75Kg
Installation	Wall mount
Operating Tempertaure	-10°C~ + 55°C
Operating altitude	0-3,000 m (Derating above 2,000 m)
Environment	InDoor
Relative humidity	5%~95%
Cooling	Natural Convection
Protection rating	IP20
Noise Emission	0 dB
Cycle Life	>6000 (@25C, DoD 90%)
Display	SOC Status indicator LED Indicator
Cell Technology	Lithium Iron Phosphate (LiFePo4)
Scalability	Max 64 Systems in parallel operation
Communication Ports	CAN / RS485
Warranty	5 Years Standerd Warranty
